Hi Amber,  
Thanks for following up!

Here is the info that we would ideally obtain if we can.

1. Name. First and last name are preferred and a nickname if they had one.
2. Date of death
3. How they died
4. What city they died in
5. Any interests or hobbies or known facts about the person.

I know this is a lot of information to gather, but attached is a program and on page 2 is a sample of the names. Many we don't know much about, but to (at least) have a full name, and cause of death would be nice.

Hope this helps!

Jacki
