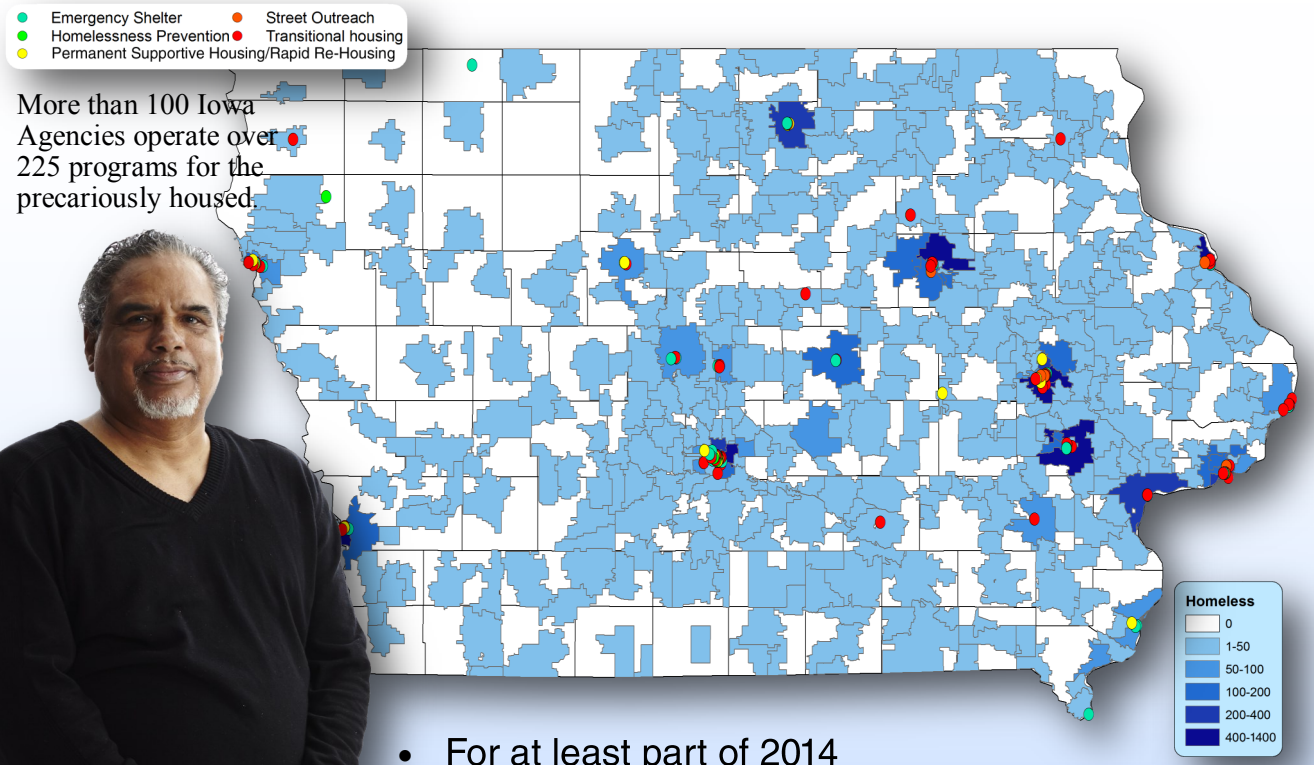
12,337 IOWANS EXPERIENCED HOMELESSNESS IN 2014



More than 100 Iowa Agencies operate over 225 programs for the precariously housed.

This is Albert.
He lived at Central Iowa Shelter & Services

- For at least part of 2014
  - **8,162** Iowans lived in emergency shelters.
  - **3,497** Iowans lived in transitional housing.
  - **2,098** lived on the streets and were served by street outreach agencies.
- **3,476** Homeless families with **5,726** people.
  - Including **3,594** Children
  - The average child was 6 years old.
- **6,817** people were unaccompanied individuals.
- Of all adults experiencing homelessness
  - 2/3 had some sort of disability.
  - 908 Were U.S. Veterans.
  - 55% were homeless for the first time.

- 60% of transitional clients go to permanent destinations.
- Regardless of destination, most clients become stable and never re-enter homelessness. Even in emergency shelter.
- But 9% of transitional housing and 14.7% of emergency shelter clients are chronically homeless, and need extra help to become stable.
- On average clients in emergency shelter increase their income by 36%.
- On average clients double their income in transitional housing.
- Still, on average their income is only $629 per month.

CALL TO ACTION

Recommendations from our letter to the Governor.

- increasing the availability of housing units
- provide rent assistance for low-income households.
- Add a check-box option to Iowa Income Tax 1040 form, giving individuals the opportunity to contribute to homeless services in their region.
- Secure adequate funding and resources to address domestic violence and mental illness, which are leading contributors to homelessness.
- Assess federal funding opportunities and increase state funding for homeless programs
- Take a leadership role in finding alternatives to criminalization of homelessness and oppose efforts to further criminalize homelessness.

Other things you can do.

- Raise wages so that jobs pay enough to afford a home.

  If more jobs paid a living wage, more workers could afford safe and healthy housing.

- Create affordable homes.
- A home is the foundation for health, education, and stability.
- Children need a home to study and do homework.

  Investing in affordable housing ensures that investments in education reach our most vulnerable students. Homes for people with mental illness help ensure they stay connected to health care and treatment, while reducing the use of expensive emergency services.

- We need dedicated funding source for homelessness issues so that cities can be better equipped to overcome the challenges associated with homelessness and ultimately realize a sustained reduction in their local homeless populations.
- Pass legislation to prevent landlords from categorically denying housing to all tenants relying on a lawful housing subsidy or lawful income supports to help pay the rent. Pass legislation to protect renters from source of income discrimination.

Thank you for maintaining the Shelter Assistance Fund, which provides over $900,000 annually to shelters and services. This is derived from a portion of real estate transactions taxes.
