

September—October

Information Coming in

Someone is sleeping on a bench downtown yesterday but not today.

I saw someone who looked homeless in green square park.

A homeless guy was hanging around the museum earlier this week

There are potentially 3 individuals sleeping downtown near Green Square Park. One male and 2 unknown.

November—December

David R is homeless and sleeps on a bench in green square park between the library and the museum 3 nights per week. David needs a blanket and knows the location of 8 more men.

January

We have met with David several times and met his most immediate needs. He leads us to 10 others who are outside and needing blankets. They all agree to meet us at Green Square Park on the night of the count.
